Re: Kerr-McGee Chemical Corporation

Dear Sir or Madam:

By letter of March 11, 1998, John Kemmerer of Region IX of EPA, sought information from the subject company pursuant to Section 104(e) of CERCLA regarding manufacture and sale of perchlorate compounds by its Henderson, Nevada plant. Question 7 of that request sought information about customers that had acquired more than 500 lbs. of perchlorate compounds from Kerr-McGee in any year.

A response on behalf of Kerr-McGee Chemical LLC that I forwarded Mr. Kemmerer on April 17, 1998, appended a list of such customers from 1978 forward. The response explained that Kerr-McGee did not normally retain such commercial data for long periods and pre-1978 records were not available. Nonetheless, as a result of further investigation of Kerr-McGee's records and archives, the Company has discovered some pre-1978 commercial records. In addition, it has identified some post-1978 customers that were not included in the 1998 list.

Accordingly, I am attaching a supplemental list of customers who in any given year acquired more than 500 lbs. of perchlorate compounds from Kerr-McGee's Henderson, Nevada plant.

Please contact me if you have any questions.

Sincerely,

John T. Smith II
